

ATLAS (Accessing Telehealth through Local Area Stations)

VA and The American Legion Team Up To Offer Video Telehealth Appointment Locations

The U.S. Department of Veterans Affairs and The American Legion are proud to connect Veterans to care closer to home. Select American Legion posts host ATLAS sites, where Veterans will find comfortable, private appointment rooms equipped with internet access and the technology needed to meet with their VA providers through VA Video Connect, VA's secure video conferencing app. This option makes VA care easier to access and reduces burdens like long travel times to appointments.

VA Care at a Convenient Location

Select American Legion posts provide Veterans with a **private appointment room and the technology** to meet virtually with a VA provider.

Using VA Video Connect, Veterans can connect with a VA provider through **secure, real-time video**.
